**DETAILED ACTION*****Drawings***

1. The drawings are objected to because figures 27-30 and in particular figure 29 is hard to follow as to where the arrows point. Since figure 29 with the possible addition of figure 30 is the drawing(s) the examiner intends to put on the front page, it would be better if these drawings were as clear as figures 1 through 26. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Objections***

2. Claims 1-16 are objected to because of the following informalities:

Claim 1: Claim 1 is objected to since it appears to the examiner that at the end of claim 1, a clarification of the disengaged state should also be described. For example: and when the locking mechanism is disengaged, said upper member is in another position that does not provide said constant fluid communication (or any fluid communication if that is the case, etc.)

Claim 5: "a position" in line 5 should start with --the-- in order to refer to its antecedent introduced in line 10 of claim 1.

***Allowable Subject Matter***

3. Claim 1 would be allowable if rewritten to overcome the claim objection set forth in this Office Action.
4. Claims 2-16 would be allowable if rewritten to overcome the claim objections set forth in this Office Action and to include all of the limitations of the base claim and any intervening claims.
5. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

*Conclusion*
